

Press Release – December, 2008

Tabs3 and PracticeMaster Win Again!

We hope that your firm is using the Tabs3 and PracticeMaster5 software products from Software Technology Inc. and you will find this news reassuring. Or, if you are a firm still considering Tabs3 Billing Software, you might find this news interesting as well.

Tabs3 and PracticeMaster recently won several Law Technology News Awards. Tabs3 won the gold medal for *Billing Software for Small to Mid-Sized Firms* and Tabs3 and PracticeMaster won the gold medal for Practice Management Software. Version 14.3 of Tabs3 and PracticeMaster also won the silver medal in the Product of the Year category. In fact, Tabs3 has won the billing software award six consecutive years – more than any other product.

Awards cannot tell you which product is best for *your* firm. However, when you combine the awards with the 90% of Tabs3 users who recommend it to other firms and the 95% satisfaction level for technical support, Tabs3 and PracticeMaster are clearly products that a firm your size should consider.

Baker+Cadence Solutions is proud to be associated with Software Technology Inc. as a member of their President's Circle, and as a leading consultant on Tabs3 and PracticeMaster.
